PURE POLARIS® APPAREL

» A COLLECTION FOR EVERY RIDER

Pure Polaris® has collections of riding gear to serve the needs of every rider. Mountain riders need to stay dry while riding aggressively all day, and trail riders need gear to keep them warm and riding even when temperatures plummet.

The FXR® Mountain and PURE-DRY® Collections serve the needs of mountain and aggressive trail riders enjoying mild temperatures. The FXR® Trail, PURE-HEAT™ and Pure Polaris® Collections keep riders warm and comfortable no matter how cold it gets.

Each collection includes essential riding gear – jackets, bibs, gloves and boots. Collections work best when worn together.

» KEEP DRY, KEEP RIDING

With lightweight, high-tech PURE-DRY® gear, high-performance riders will stay dry & comfortable all day. For extra warmth and exceptional heat & moisture transfer, add the new Mid-Layer between the PURE-DRY® base layer and outer layers, and you'll stay dry as you roast the competition. In any weather, at any elevation, keep dry & keep riding.

WATERPROOF/BREATHABILITY

PURE-DRY®: TECHNOLOGY BREAKDOWN

By quickly evaporating the bodies moisture, the rider stays dry and comfortable.

EFFECTIVE PURE-DRY LAYERING

Pure-Dry® delivers increased performance when worn as a layered system... that's MORE breathability as you layer.

C. PURE-DRY® VAPOR JACKET UN-INSULATED

SHELL: 100% Nylon shell. Un-insulated; mesh-lined for comfort, unrestricted movement and easy on/off. Layer as conditions demand.

WATERPROOF BREATHABLE: 10,000mm/20,000g. Cocona® Xcelerator fabric technology promotes rapid moisture transfer and evaporation, and delivers the latest innovations in waterproof, breathable performance. 2-way YKK® waterproof front zipper.

VENTILATION: Underarm and back vents have mesh gussets to prevent snow from getting inside jacket; 2-way zip underarm vent and vertical back vent (won't interfere with a backpack).

2862024 | Black | Men's S - 3XL, MT - 2XLT

2863046 | Red | Men's S - 3XL

BREATH DEFLECTOR INCLUDED

B. FLY F2 CARBON SNOW HELMET **NEW**

SHELL: Composite construction shell made of state of the art, aircraft-grade woven carbon fiber and Kevlar® composite materials for superior strength and light weight; dual density EPS (Expanded Polystyrene) liner, one layer softer and one slightly harder, combining to provide more progressive impact absorption for different levels of impact.

VENTS: Multi-port air induction cooling system, 11 intake and four exhaust vents, and tri-vent goggle anti-fog vents.

INTERIOR: "Quick Snap" system, removable washable comfort liner and cheek pads; the plush liner absorbs sweat and ventilates.

ADDITIONAL FEATURES: Comes with breath deflector and rubber vent plug kit; protective nose guard; lightweight aluminum hardware.

SAFETY: SNELL® M2010-, DOT- and ECE-approved.

COMPOSITE CONSTRUCTION SHELL

Outer shell is constructed using state-of-the-art, aircraft grade woven carbon fiber and Kevlar® composite materials, which creates superior strength while remaining extremely light.

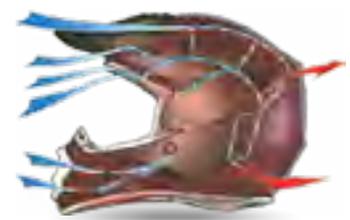

DUAL DENSITY EPS LINER

Two layers of Expanded Polystyrene, one softer one slightly harder, combine to give you more progressive impact absorption.

MULTI PORT AIR INDUCTION COOLING SYSTEM

Eleven intake and four exhaust vents create massive airflow to keep your head cool. So cool, that we include an air vent plug kit to keep you warm and cozy when riding in cold weather.

HELMETS **MOTO**

A. DEMON 1.1 HELMET

SHELL: Lightweight, protective composite fiberglass with a dual-density EPS liner. The EPS liner absorbs impact, and its two layers are engineered to position increased density in specific impact-prone areas to provide the most effective protection.

VENTS: Aerodynamic, multi-channel flow-through ventilation system introduces fresh cooling air that flows over and around the rider's head, then exhausts out rear vents for enhanced rider comfort.

ADDITIONAL FEATURES: Removable molded roost deflector protects the nose/face from debris; adjustable chin strap.

SAFETY: SNELL® M2010/DOT-approved.

GOGGLES

C. 509™ AVIATOR SNOWMOBILE GOGGLES

FRAME: Minimized-depth frame has triple-layered foam for a comfortable fit on a rider's face. The rimless design allows the lens surface to easily shed snow, thus preventing snow build-up to keep vision clear on even the snowiest days.

LENS: Dual-pane, cold weather-specific smoke tint lens has a bronze mirror finish and is made of shatterproof material; lens has seven foam-lined vents, is 100% UV blocking, and has anti-fog and anti-scratch coatings.

STRAP: Triple silicon-lined strap keeps the strap and goggle securely in place.

ADDITIONAL FEATURES: Removable nose mask, Polaris® branding on the strap.

2863035 | Aviator Lens | Yellow Tint Lens

2863040 | Anti-Fog Fan

D. 509™ SINISTER SNOWMOBILE GOGGLES

FRAME: Features 14 vents across the top, sides, bottom and the lens to create a continual flow of cool, comfortable air. This airflow exhausts all the hot air out the bottom of the goggle and keeps the lens fog free.

LENS: Dual-pane, cold weather-specific yellow tint lens has a chrome finish and is made of shatterproof material; lens has four foam-lined vents, is 100% UV blocking, and has anti fog and anti scratch coatings.

STRAP: Triple silicon-lined strap keeps the strap and goggle securely in place. Hinged strap mounts are designed to work specifically with open-faced MX-style helmets. Optimized seal against the face. No air or moisture leaks inside the goggle.

ADDITIONAL FEATURES: Removable nose mask, Polaris® branding on the strap.

MEN'S LAYERING

STEP 1

BASE LAYER

Base layer needs to wick sweat away from your skin. Polyester is good, cotton is bad.

STEP 2

INSULATING LAYER

Insulating layer must work with the base layer to transfer moisture. Polyester and fleece are best. Includes Mid layer and Mid-heavier layer.

STEP 3

OUTER LAYER

Outer layer must block wind and allow moisture to escape. Add or remove layers as needed to stay warm and comfortable.

A. PURE-DRY® BASE LAYERS

BASE

- » 100% Polyester knit.
- » Cocona® technology for rapid moisture transfer.
- » Pill-proof durability.
- » Features mock neck design.

WOMEN'S LAYERING NEW

STEP 1 BASE LAYER

Base layer needs to wick sweat away from your skin. Polyester is good, cotton is bad.

STEP 2 INSULATING LAYER

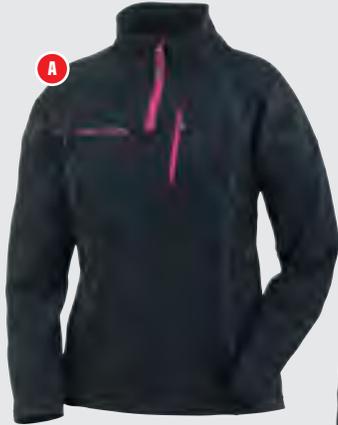

Insulating layer must work with the base layer to transfer moisture. Polyester and fleece are best. Includes Mid layer and Mid-heavier layer.

STEP 3 OUTER LAYER

Outer layer must block wind and allow moisture to escape. Add or remove layers as needed to stay warm and comfortable.

PURE POLARIS® ACCESSORIES

» PURE POLARIS® ACCESSORIES FOR EVERY RIDER & EVERY SLED

Every Pure Polaris® accessory was developed and built to install easily, fit right and enhance the sled's function. The better the accessory, the better your ride, which is why we strive to produce accessories that suit real riders' needs and varied riding styles.

BURANDT COLLECTION

We teamed with backcountry freeride expert Chris Burandt to develop a special collection of accessories to enhance the ride for deep snow riders.

800 PRO-RMK® 155

CANVAS COVERS

These durable Canvas Covers provide outstanding protection for your favorite sled when it's being towed, parked overnight or stored in the off-season.

FITMENT: Custom fit for Polaris® snowmobiles, excellent coverage of spindles and a-arms, adjustable strap to accommodate windshield heights.

MATERIAL: Rugged, durable 10 oz. canvas, treated to repel water and UV degradation.

ADDITIONAL FEATURES: Elastic at bottom holds cover on sled.

DUST COVERS

These dependable nylon Dust Covers are ideal for protecting sleds while they are in an enclosed trailer, being stored indoors during the off-season, and also while parked overnight. Take a cover along during a multi-day riding trip and just fold it and store it in a bag while riding.

FITMENT: Custom fit for Polaris® snowmobiles, adjustable strap to accommodate windshield heights.

MATERIAL: Durable nylon.

ADDITIONAL FEATURES: Elastic at bottom holds cover on sled, not constructed for use on sled being transported on an open trailer.

RMK® STORAGE

A. BURANDT LOCK & RIDE® TUNNEL BAG

Developed in conjunction with leading back country rider Chris Burandt and storage expert OGIO®, this Tunnel Bag provides riders with exactly the cargo space needed, and it is Lock & Ride®. This bag has space for survival gear as well as a protective, padded space where food can be stored, and a waterproof section for items such as electronics.

MATERIAL: Ballistic Nylon and Truck Tarpaulin.

ATTACHMENT: Bag's Lock & Ride® quarter-turn fittings install in T slots in tunnel.

CAPACITY: 2500 cu. in.

ADDITIONAL FEATURES: Bag has integrated backpack straps for easy transport when it's off the sled. Lock & Ride® technology: Install or remove the bag in seconds without tools.

2879086 | '07-11 IQ® RMK®, '11-13 PRO-RIDE™ RMK®, '11-13 Switchback® Assault*

B. PRO-RIDE™ UNDERSEAT BAG

This Underseat Bag is designed specifically to fit under the seat of MY13 RMK® models. Bag can be left attached to the sled for extended periods and cargo can be transported to and from the sled in a removable water-resistant liner.

MATERIAL: Durable 1000D Nylon with water resistant coating.

ATTACHMENT: Specifically designed to fit under seat of MY13 RMK® (except RMK® 600 144"). Bag attaches with Velcro® to seat support.

CAPACITY: 364 cu. in. with a 216 cu. in. expandable section.

ADDITIONAL FEATURES: Bag is elevated off the tunnel for improved water resistance.

2879087 | '13 PRO-RIDE™ RMK*

* Excludes '13 144" RMK®

C. WATER-RESISTANT TUNNEL BAG

MATERIAL: Heavy-duty nylon.

ATTACHMENT: Mounts quickly & easily on the sled's tunnel.

CAPACITY: Bag dimensions are 24" x 14" x 8", approximately 1.5 cu. ft.

ADDITIONAL FEATURES: Water-resistant construction to protect contents.

2878732 | '07-11 IQ® RMK®, '11-12 PRO-RIDE™ RMK®, '13 144" RMK®, '11-13 Switchback® Assault*

D. RMK® UNDERSEAT BAG

MATERIAL: 1000-denier black nylon.

ATTACHMENT: Self-adhesive Velcro®†

CAPACITY: 500 cu. in. volume.

ADDITIONAL FEATURES: Water-resistant construction to protect contents, includes zippered Insert Bag that holds cargo inside Underseat Bag for additional protection.

2876427 | '11-12 PRO-RIDE™ RMK®, '13 144" RMK®, '11-13 Switchback® Assault, '07-11 IQ® RMK*

2878733 | Water-resistant Underseat Bag Liner

E. FUEL CAN RACK

MATERIAL: Lightweight aluminum construction.

ATTACHMENT: Fastens to integrated T-slots.

CAPACITY: Fits up to 8.5" x 12" fuel can.

ADDITIONAL FEATURES: Fuel can sold separately, not offered through Polaris®

2876765 | '11-13 PRO-RIDE™ RMK™ Rack, '11-13 Switchback® Assault, '07-11 IQ® RMK*

F. PRO-RIDE™ DEFROST BAG

POLARIS INNOVATION

With this PRO-RIDE™ Defrost Bag installed, the instrumentation is repositioned for easier visibility when the rider is standing, and the heated bag is an ideal place to store items such as goggles and gloves.

MATERIAL: Durable 1680-denier black ballistic nylon with a water resistant coating.

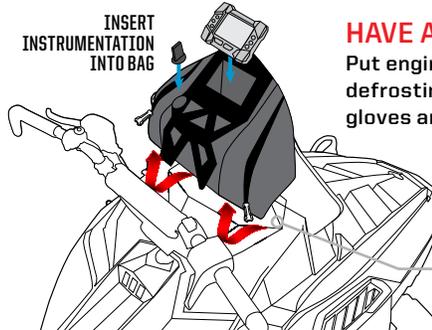

ATTACHMENT: Aluminum external bracket support.

CAPACITY: 464 cu. in.

ADDITIONAL FEATURES: Zippered compartment and side mesh venting.

2879090 | '10-13 PRO-RIDE™*

* Excludes Indy®

HAVE A PAIR READY.

Put engine heat to use defrosting goggles, heating gloves and other items.

ENGINE HEAT IS DIRECTED INTO BAG USING GAUGE PORTAL TO DRY GLOVES AND DEFROST GOGGLES

G. UNDERHOOD BAG

MATERIAL: Heavy-duty nylon.

ATTACHMENT: Multiple straps mount the bag under the hood above the exhaust.

CAPACITY: Bag dimensions are 7" x 10" x 3", approximately 210 cu. in.

ADDITIONAL FEATURES: Holds a pair of gloves, goggles, etc., so they can be warmed and dried by engine heat.

2878735 | All PRO-RIDE™

H. RMK® RISER BAG

MATERIAL: 1680-denier Polyester/600-denier Polyester.

ATTACHMENT: Straps on in seconds, no drilling; fits both post and ProTaper®† bars, fits 125mm and 5.25" risers.

CAPACITY: 285 cu. in. volume.

ADDITIONAL FEATURES: Zippered pockets.

2878187 | '11-13 PRO-RIDE™ RMK®, '11-13 Switchback™ Assault®, '07-11 IQ™ RMK®

I. RMK® SHOVEL BAG

MATERIAL: 1680-denier black/gray ballistic nylon.

ATTACHMENT: Easy bolt-on installation.

CAPACITY: 600 cu. in. volume.

ADDITIONAL FEATURES: Holds shovel head, handle, gear.

2876015 | '07-11 IQ™ RMK®, '11-13 PRO-RIDE™ RMK®, '11-13 Switchback™ Assault®

WIND PROTECTION

NEW

A. EXTRA WIDE TALL WINDSHIELD

This Extra Wide Tall Windshield provides the broadest protection so wind, snow and ice are directed well wide of, or over the rider. Integrated vents reduce buffering.

HEIGHT: 24" tall for ultimate wind protection.

MATERIAL: 20% thicker than stock windshield.

INSTALLATION: Installs with 6 fasteners.

ADDITIONAL FEATURES: Light smoke finish with silkscreen.

2879156 | All PRO-RIDE™ Includes '13 INDY®

NEW

B. BURANDT SIGNATURE WINDSHIELD

This Burandt-inspired Windshield features styling by back country riding expert Chris Burandt with custom Chris Burandt graphics.

HEIGHT: 12" tall for a stylish look.

MATERIAL: Screen printed polycarbonate.

INSTALLATION: Installs with six fasteners.

ADDITIONAL FEATURES: Low-Mid height windshield provides protection against wind, snow and brush. Graphics include Chris Burandt's signature and back country logo.

2879098 | All PRO-RIDE™ Includes '13 INDY®

C. WIDE WINDSHIELD

HEIGHT: 20" tall for excellent wind protection.

MATERIAL: 20% thicker than stock windshield.

INSTALLATION: Installs with six fasteners.

ADDITIONAL FEATURES: Smoke finish w/silkscreen, hand flares and side deflectors.

2878512 | All PRO-RIDE™ Includes '13 INDY®

D. MID WINDSHIELD

HEIGHT: 18.5" tall with top lip for added wind protection.

MATERIAL: 20% thicker than stock windshield.

INSTALLATION: Installs with eight fasteners (included).

ADDITIONAL FEATURES: Smoke finish w/silkscreen.

2877841 | All PRO-RIDE™ Includes '13 INDY®

E. CHROME RMK® WINDSHIELD

HEIGHT: 14" tall without top lip to avoid snow being directed in the rider's face.

MATERIAL: 20% thicker than stock windshield.

INSTALLATION: Installs with six fasteners.

ADDITIONAL FEATURES: Chrome finish.

2877840 | All PRO-RIDE™ Includes '13 INDY®

F. LOW WINDSHIELD

HEIGHT: 7" tall, creates a lower profile.
MATERIAL: 20% thicker than stock windshield.
INSTALLATION: Installs with six fasteners.
ADDITIONAL FEATURES: Gives your sled a custom look.

A. PRO-RIDE™ EXTREME ALUMINUM FRONT BUMPER

- » More stout than the stock bumper, provides additional protection.
- » Strong, lightweight aluminum.
- » Brushed aluminum.
- » All mounting hardware included.

2878688 | All PRO-RIDE™ includes '13 INDY® | Aluminum

2878688-458 | All PRO-RIDE™ includes '13 INDY® | Black

2878688-133 | All PRO-RIDE™ includes '13 INDY® | White

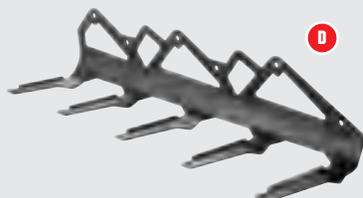

B. BURANDT'S HD POWDER TRAC™ BOARDS

Strong, durable Burandt's HD Powder Trac™ Boards let extreme riders take their riding to the next level. These beefy extruded aluminum running boards provide the greatest strength made of 6061-T6. They provide a rider with secure footing the full length of the boards during extreme riding.

- » Extruded aluminum design with a machined profile.
- » Secure front and rear attachment with castings that are adhesive bonded.
- » Designed for quick snow evacuation and to prevent ice build-up.
- » Removable and serviceable running board assembly.

2879091 | '11-13 PRO RMK™ 155-163" | Sold as Pair

C. PRO-RIDE™ HEAT EXCHANGER GUARD

- » Protects the front heat exchanger.
- » Strong, lightweight aluminum.
- » Powder-coated black wrinkle finish.
- » All mounting hardware included.

2878119 | '10-13 RUSH®, '12-13 Switchback®

* Will not fit with PRO-RIDE™ skid plates

D. PRO-RIDE™ RMK™ TUNNEL REINFORCEMENTS

- » Strong, durable, lightweight 0.1" thick aluminum.
- » Powder-coated black wrinkle finish.
- » Maintains running board angle during rough riding.
- » All mounting hardware included.

2878178 | '11-12 PRO-RIDE™ RMK®, '13 600 RMK™ 144**

E. PRO-RIDE™ SKID PLATES

- » Protects suspension, bulkhead from impact.
- » Made of strong ¼" UHMW plastic.
- » Adds color and a customized look.
- » RMK®-style fits RMK® and Switchback® Assault® models without front heat exchanger.
- » Includes all necessary mounting hardware.

2013 ACCESSORIES

ABS

NEW

G. ABS POLARIS® AVALANCHE PACK

This ABS Polaris® Avalanche Pack is a backpack that doubles as avalanche survival gear with its self-contained, instantly inflatable airbag. A rider who encounters avalanche conditions can activate inflation of the large airbag atop the pack, which helps prevent burial or minimize burial depth. ABS is a leader in avalanche safety equipment for all types of winter outdoor enthusiasts.

- » Avalanche airbag is designed to minimize excavation time by preventing burial or minimizing burial depth.
- » A compact compressed-air cylinder stored inside the pack provides fast, reliable airbag inflation.
- » Reusable for multiple inflations; compressed-air cylinder can be refilled or exchanged.
- » Pack provides generous storage space for essentials such as survival gear, food, tools, water bottles, etc.
- » Comfortable, secure shoulder and torso straps.
- » Canisters and handles are sold and distributed by ABS.

RETROBUTION WRAP

C

A. & B. BURANDT WRAPS

Infuse your sled with a dose of the style Chris Burandt brings deep into the backcountry. This Burandt Khaos Wrap kit features exciting graphics that Chris helped design. These top-quality graphic wraps are produced by ArcticFX graphics, the motorsports industry leader in premium graphics wraps.

- » Kit includes durable, adhesive-backed wrap pieces for the hood, side panels, sides of the tunnel and seat mounting block.
- » Wrap kits fit all PRO-RIDE™ sleds.

C. RETROBUTION WRAP

It's easy to give your sled a custom look by adding this graphic wrap kit. These Polaris® retro graphics can be applied easily to bodywork to give a sled a completely new look. These premium graphic wraps are produced by ArcticFX graphics, the leader in motorsports graphics wraps.

- » Kit includes durable, adhesive-backed wrap pieces for the hood, side panels, sides of the tunnel and seat mounting block.
- » Wrap kits fit all PRO-RIDE™ sleds.

A. BURANDT SIGNATURE WRAP

COLOR	HOOD & SIDE PANEL	TANK & TUNNEL*
BLACK / WHITE / SILVER	2879092-133	2858002-XXX
ORANGE / BLACK	2879092-446	2858003-XXX
BLUE / BLACK	2879092-341	2858004-XXX
RED / BLACK	2879092-293	2858005-XXX

* Includes INDY®

* Excludes INDY®

HOW TO ORDER

1. Choose your wrap
2. Choose graphics color
3. Choose placement

XXX represents track length. Add your track length to the end to complete the ordering part number.

Example: Track length = 136. For Burandt Signature wrap, color Orange-Black, your tank and tunnel part number would be 2858003-136

B. BURANDT KHAOS WRAP

- » Includes nosepan, aluminum bumper, left and right fenders, all necessary hardware and detailed instructions.

2876986 | '07-09 IQ™

* Does not fit models with front cooler

SEATS

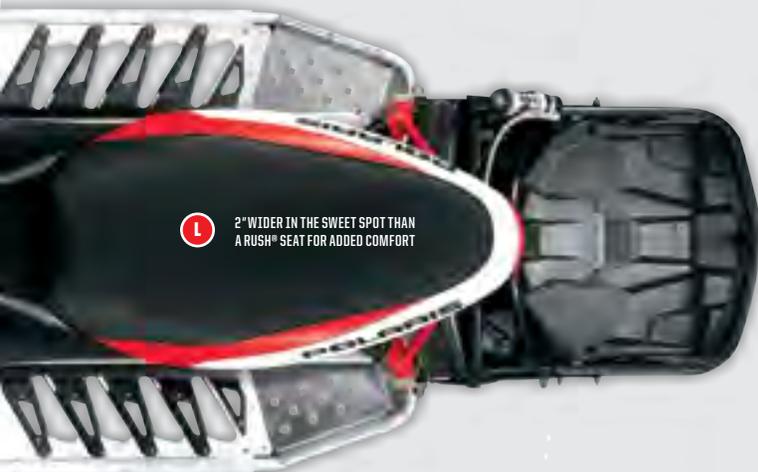

K. LIGHTWEIGHT RMK® SEAT

This Lightweight RMK® Seat is the same as a MY 13 Pro RMK® seat, and is designed to provide greater comfort and enhanced ergonomics. This seat is more than 1 pound lighter compared to a '08-'12 seat. It is wider and flatter for greater comfort when a rider is seated, and the front section of the seat retains the narrow profile to optimize space and maneuverability for a standing rider.

- » Wider, flatter seat surface; narrow front of seat for easy stand-up riding.
- » Shorter seat allows easier side-to-side movement of feet and legs.
- » New rear seat support and hardware included.

2879089 | '08-13 RMK', '11-13 Switchback® Assault™

2" WIDER IN THE SWEET SPOT THAN A RUSH® SEAT FOR ADDED COMFORT

L. COMFORT SEAT FOR RUSH®

This Comfort Seat provides a broader saddle and enhanced cushioning to give a rider a more comfortable ride, especially during long days spent on the sled. This multi-paneled seat installs in place of the stock seat on RUSH® models and it offers an ideal combination of cushion and support.

MATERIAL: Durable leather-like vinyl, red, white, black.

ADDITIONAL FEATURES: 2" of width added in "sweet spot," gradual taper for wider range of riders and rocker added for stability and support.

E

WALKER EVANS®: ADJUSTABLE PERFORMANCE SHOCKS

WALKER EVANS® NEEDLE SHOCKS WITH COMPRESSION ADJUSTMENT.

Premium shocks with external compression and remote reservoirs offer the best in tunability and fade-proof performance. Unique needle design uses hydraulic force at the end of the stroke to minimize harsh bottoming.

F. WALKER EVANS® CR IFS SHOCKS

- » High-performance trail shocks that offer a wide range of adjustment, from extremely compliant for trail chatter to very aggressive for big hits.
- » Compression and rebound adjustment.
- » External compression adjustment offers wide range for all riding styles.
- » Springs included.
- » Piggyback-style is the ideal fit for IQ® plastic with aluminum front bumper.

2878738 | '12-13 RUSH®, '12-13 Switchback® Assault®, '12-13 Switchback®, Pair

G. WALKER EVANS® PIGGYBACK NEEDLES

- » High-performance trail shocks that offer a wide range of adjustment, from extremely compliant for trail chatter to very aggressive for big hits.
- » This is enhanced by exclusive Internal Needle Valve Technology that resists bottoming and allows use of the full shock stroke as much as possible.
- » External compression adjustment offers wide range for all riding styles.
- » Springs included.
- » Piggyback-style is the ideal fit for IQ® plastic with aluminum front bumper.

E. POLARIS® IQ2 SKI Improved performance, control and cornering

- » Aggressive profile for improved trail control.
- » Upgrades easily from a steel ski, includes ski toe & hardware.
- » Less handlebar vibration, smoother feeling ride.
- » Carbide skags required - sold separately - see chart to the right.

2877680-293 | IQ® '10-11 RUSH® | Red, Each

F. POLARIS® IQ® RACE SKI The race-proven ski for aggressive cornering (NOT SHOWN)

- » Factory race proven, aggressive 90° snocross keel.
- » Provides improved control and better cornering, reduces darting.
- » Wide tip for increased flotation.
- » Includes ski toe & hardware. Carbide skags required - sold separately - see chart to the right.

2900256-070 | IQ® | Black, Each

G. POLARIS® SADDLELESS SKI A great upgrade from a steel ski (NOT SHOWN)

- » Improved control, includes hardware and ski stop
- » Less handlebar vibration, Smoother feeling ride.
- » Carbide skags required - sold separately - see chart to the right.

2874186-070 | IQ® | Black, Each

H. POLARIS® SKI TOES

- » Fits all Polaris® composite skis for that customized sled look.

2876062-293 | Fits on Gripper and Pro-Steer™ Skis | Red, Pair

SKIS & TRACTION

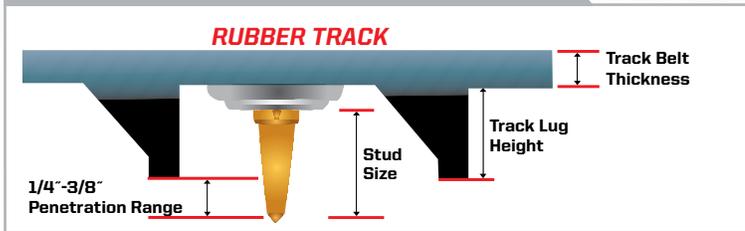

HOW TO GET PURE TRACTION ON ICE AND HARD-PACK SNOW.

Adding traction products to your sled improves acceleration, braking and steering control, especially on hard-pack snow and ice. The more aggressive rider you are, the more traction you need. The key is to have the right balance of traction products on your track and skis.

- 1) Determine how to match your riding style and sled model to the correct number of studs, type of studs and stud pattern.
- 2) Determine the right type and length of turning carbides necessary to balance traction and optimize steering.
- 3) Make sure you have the necessary parts installed to prevent the studs from damaging your sled's tunnel and cooling system.

STUDS: TRACTION FOR PERFORMANCE & SAFETY.

SKIS & TRACTION

DEEP SNOW: SERIES 5.1 TRACK »

» Industry leading deep powder track. For 8T Drive sprockets, 2.86" pitch. Available in 146", 155" and 163" lengths.

- » Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- » Soft and flexible tips for superior performance in deep snow

DEEP SNOW: SERIES 4 TRACK »

» The standard in 2" deep snow tracks. For 9T Drive sprockets, 2.52" pitch. Available in 144", 151", 159" and 166" lengths.

- » Equal parts versatility and durability
- » Stiff lug base for long wear and hard-pack performance
- » Soft and flexible tips for superior performance in deep snow

DEEP SNOW: COMPETITION TRACK »

» The proven 2.125" hillclimb track. Available in 146" and 155" lengths.

- » Hillclimb-specific pattern
- » Stiff durometer construction for maximum traction in hard snow
- » Pre-ported for better snow cleanout

CROSSOVER: COBRA TRACK »

» The trail track that puts more power to the snow. Excellent powder performance without compromising trail ride ability. Available in 120", 121", 136" and 146"

- » Rigid columns for good hard pack capability
- » Stepped columns and angled cutting edge enhance traction, improved handling in corners
- » Connected "cupped" lugs for outstanding performance in soft/loose snow

ON-TRAIL: RIPSAW TRACK »

» The aggressive side bite for better cornering, the standard in performance trail tracks. Available in 120", 121", 128" and 136" lengths.

- » A high-performance trail track with highly aggressive angled profiles
- » Outstanding forward and lateral bite
- » Superior handling and acceleration in wide variety of conditions

PURE POLARIS®: TECHNOLOGY DRIVEN LUBRICANTS

When it comes to maintaining top performance out of your Polaris® snowmobile, there is no better choice than Pure Polaris® lubricants and fuel. We engineer products that meet the ever evolving technology of today's high-performance engines. Designed and tested in conjunction with motors as they're developed ensures you get an oil perfectly matched for your sled.

- » **ENGINE TECHNOLOGY:** Tighter tolerances, higher operating temperatures and new technologies drive the need for better performing oil
- » **EMISSIONS REQUIREMENTS:** The performance levels of today's engines combined with need for low emissions, makes a clean burning oil essential
- » **RESPONDING TO CUSTOMERS' NEEDS:** Polaris® understands the rider and designs oil to meet customer needs with attributes such as easy-start and smokeless/low-odor formulations

DIRTY VALVE

ENHANCED VALVE CLEANLINESS

When exhaust valves have hard carbon deposits on them, they can stick and eventually seize, greatly reducing performance. VES Racing & Gold Plus minimize carbon deposits.

ENHANCED COLD PULL STARTING

Formulated to provide better starting performance in all conditions – including extreme cold temperatures.

VES RACING & VES GOLD PLUS 65% EASIER TO COLD PULL START

(measured in lbs. of Pull Force)

F. 4-STROKE OIL CHANGE KIT

» Kit includes three 1-qt. bottles of premium PS-4 Plus synthetic engine oil, filter and jumper harness.

2875522 | FS | 4 Kits per Case

G. PREMIUM ANTI-FREEZE

- » Keeps cooling systems flowing at radical sub-zero temperatures.
- » Formulated specifically for Polaris® snowmobile and ATV aluminum cooling systems.
- » 60/40 pre-mix with deionized water, effective to -62° F.

2871534 | Quart | 12 per pack

2871323 | Gallon | 6 per pack

2872278 | 55 Gallon | 1 per pack

H. SYNTHETIC CHAINCASE LUBE

- » Prevents rust, oxidation and corrosion of internal chaincase components.
- » Synthetic formula engineered and tested by Polaris® for snowmobile chains and sprockets.
- » Provides maximum protection for extreme operating temperatures.
- » Low sulfur additive resists thermal break-down.

2873105 | Quart | 12 per pack

2873106 | Gallon | 4 per pack

2872952 | 2.5 Gallon | 2 per pack

I. HYDRAULIC BRAKE FLUID

- » Designed for use in Polaris® hydraulic brakes.
- » Superior high temperature characteristics.
- » Anti-corrosive additives extend the life of brake system and ensures consistent, positive braking.

2872189 | DOT 4 12 oz. | 12 per pack

J. GREASE GUN KIT

- » Tough steel construction and pistol grip design.
- » Front and top-pipe outlet mounts accept both 6" rigid pipe nozzle and 12" 12,000 psi flex hose.
- » Comes with standard zerk fitting.

2871312 | Grease Gun Kit | 4 per pack

K. ALL SEASON GREASE

» Engineered for the pressure and temperature demands of snowmobiles, ATV and watercraft.

2871322 | 3 oz. | 4 packs, 6 per pack

2871423 | 14 oz. | 10 per pack

L. GAS SHOCK OILS

- » Premium formulas to match every shock.
- » Eliminate fade and freeze up.

2874522 | Walker Evans™ - 5 wt. - Quart | 6 per pack

2870995 | Premium FOX™ - Quart | 6 per pack

2872279 | Premium FOX™ - 2.5 Gallon | 2 per pack

2873716 | Premium RydeFX™ - Quart | 6 per pack

M. SHOCK ADJUSTING LUBE

- » Allows for easy spring adjustment.
- » Silicone dry film lubricant.
- » Penetrates shock body threads and lubricates spanner nut and threads maintaining adjustability in extreme cold.

2878018 | Shock Adjusting Lubricant | 1 per pack

N. ISOPROPYL FUEL DE-ICER

- » High-tech additive prevents fuel line freezing in extreme cold conditions.
- » Formulated for 2-cycle and 4-cycle Polaris® engines.

2870505 | Quart | 12 per pack

O. CARBON CLEAN FUEL TREATMENT

- » Formulated specifically for E10/ethanol gasoline.
- » Dissolves gum & varnish in fuel system.
- » Prevents & cleans carbon in combustion chamber.
- » Excellent fuel stabilizer for storage.
- » Formulated for 2&4-cycle Polaris® engines.
- » Absorbs water & stabilizes fuel.

2871326 | 12 oz. | 12 per pack

P. PREMIUM ETHANOL FUEL STABILIZER

- » Prevents fuel oxidation and system corrosion.
- » Significantly reduces gum and varnish formation.
- » Protects fuel system components.
- » Formulated for 2&4-cycle Polaris® engines.

2870652 | Quart | 12 per pack

2872280 | 2.5 Gallon | 2 per pack

Q. 112 OCTANE RACING FUEL (not shown)

- » Consistent blend, excellent shelf life.
- » Engineered and tested by the Polaris® Factory Race Team to meet the demands of high-horsepower stock and modified racing engines.
- » Legal-stock fuel for most race sanctions; dilute to meet specific octane requirements.
- » Maximum horsepower potential.

2877162 | 16 Gallon | 112 Octane

2877163 | 55 Gallon | 112 Octane

SOLUTIONS FOR: E10 GASOLINE

- Formulated specifically for E10 gasoline
- Designed to address the negative aspects of phase separation common in all Ethanol blended gasoline

USE GENUINE POLARIS® BELTS FOR MAXIMUM PERFORMANCE

PURE POLARIS®: DRIVE BELTS

- » Engineered, tested and guaranteed to fit and perform on Polaris® machines.
- » Lowest tolerances (0.188") – provide the most consistent performance.
- » Precision measured to ensure stringent tolerances are met for both length and width.

COMPOUND AND CONSTRUCTION IDENTIFICATION

STANDARD // GOOD	CVT // BETTER	KEVLAR® // BEST	PBO // ULTIMATE
<ul style="list-style-type: none"> • Good trail belt for lower horsepower engines • Best suited for low speed operation 	<ul style="list-style-type: none"> • Increased service life over Standard belts • May need 1-2 grams heavier drive clutch weight over Standard belts 	<ul style="list-style-type: none"> • Increased service life over CVT belts by up to 8 times • Cut edges belt; consistent like PBO belts • Short break-in period • May need 1-2 grams heavier drive clutch weight over CVT belts 	<ul style="list-style-type: none"> • Extreme duty belt; longest service life • CNC ground edges on each belt • Longer break-in period

3211114	1.438" (36.53mm)	26	10.625"	45.20"	PBO – double cog, ground / sanded finish

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

» ENCLOSED SNOW TRAILERS

A

Polaris[®] enclosed snowmobile trailers incorporate quality, style and versatility into every model in the lineup. Both lightweight and aerodynamic, these trailers will outlast and outperform the competition, for years down the road.

» **Materials and Components:** Enclosed snowmobile trailers feature all aluminum box tube construction, torsion ride axles, .030" exterior panels, seamless aluminum roof skins and tapered ramp doors for easy loading and unloading of your sleds and gear.

» **Models & Sizes:** Enclosed trailers are offered in both 101" (Side-by-Side) and 7' (Inline) box widths, with standard lengths from 10 to 22'.

» OPEN SNOW TRAILERS

B

The Polaris[®] line of open snow trailers is manufactured with the true enthusiast in mind. Streamlining the loading and unloading process, these trailers will let you spend more time on the trail and less time at the truck.

» **Materials and Components:** Featuring all aluminum box tube construction, Marine Tech *Aqua Ply* decking, powder coated wheels and a fully-adjustable tie down system, Polaris[®] open snow trailers are built to withstand the best that you (or Mother Nature) can throw at them.

» **Models & Sizes:** Available in both tilting and drive-on/drive-off configurations, open snow model lengths range from 10 to 20', with capacities for 2 to 4 snowmobiles.

» SPORT DECKS

C

The Polaris[®] Sport Deck is designed to enhance the versatility of your truck. Mounting easily in the bed of any make or model, you'll find yourself exploring new terrain that was once unreachable while towing a trailer.

» **Materials and Components:** Each Sport Deck comes standard with an integrated anchor system, full-length tie down channel, 11' telescoping rear ramp and a removable headache rack. Upgrade to powder coated framework for the extra "icing on the cake."

» **Models & Sizes:** Polaris[®] Sport Decks are built standard with a 101" deck width. Optional sliding sides effectively reduce the deck's bulk while not in use.

MANUFACTURED BY:

ALCOM[®] Inc. is North America's fastest growing aluminum trailer manufacturer. With a distribution network spanning the continental United States and Canada, ALCOM[®] produces a number of nationally recognized brands including Polaris[®] Trailers. Offering towing solutions tailored to the snowmobile, ATV/UTV and motorcycle markets, there is no better way to haul your Polaris[®] or Victory[®] machines, than with a Polaris[®] trailer built by ALCOM[®] Inc.
